Please read this information sheet before filling out the application.

It will help you to complete the application more efficiently.

- No application will be accepted until it is filled out completely, with all signatures and dates, and with all documentation and support evidence provided, including payment of yearly membership dues if required.
- We need every child's complete social security number.
- If you can check yes to a box in **Section 2** of the Youth Participation Eligibility Form, only check one box. For example, if you check both Medicaid and the SNAP boxes, you will need to provide proof of both. Only one is needed.
- We can only accept Georgia Gateway printouts, or an official letter from the Georgia Division of Family and Children Services outlining your benefits. No cards can be accepted as proof of benefits.
- If you are unable to check yes to any box in **Section 2** you must fill out **Sections 3, 4 & 5** on the Youth Participation Form. This will require proof of income as in wage statements or check stubs.
- Each wage earner in the household must provide income statements for the most current 4 weeks of employment. If you are paid weekly, you will need to provide 4 stubs. If paid biweekly or bimonthly, you will need 2 statements, etc.
- Applications will be reviewed by the front desk when they are turned in. Applications will be returned to the parent/guardian until they are correct. We are unable to accept partially complete applications.
- The child will not be eligible for the Program until applications are processed. Completing an application does not guarantee acceptance into the Program.
